

# *hist*Hub

Vernetzte und normierte Daten  
für die historischen Wissenschaften

Ein Kooperationsprojekt von:

DDS – Diplomatische Dokumente der Schweiz | HLS – Historisches Lexikon der Schweiz

SSRQ – Rechtsquellenstiftung des Schweizerischen Juristenvereins

Schweizerisches Idiotikon | ortsnamen.ch

## A Hub for Historical Data in Switzerland

Dr. Bernhard Rued

Dr. Pascale Sutter

Law Sources Foundation of the Swiss Lawyers Society

# Who's behind?

## Historical sciences

- Law Sources Foundation of the Swiss Lawyers Society (SSRQ)
- Historical Dictionary of Switzerland (HLS)
- Diplomatic Documents of Switzerland (Dodis)

## Linguistics

- Dictionary of the Swiss German Language (Schweizerisches Idiotikon)
- Swiss Toponymy Portal ([ortsnamen.ch](http://ortsnamen.ch))

Based on reliable research data  
from the project partners

- 70'000 persons
- 21'000 organisations
- 470'000 places
- 7'000 keywords/concepts
- 180'000 lemmata

# Goals

- Authority data: multilingual, modular, diachronic, granular
- Linked data: long-term and stable linking of high-quality research resources
- Tools: development, support and dissemination of digital tools
- Reliable research data: quality assurance, feedback system
- Integration of other institutions: importing their data, avoiding isolated solutions

# Target groups

- Interested public
- Research community: individual researchers, projects, institutions
- Digital Humanities community
- YOU!

## Two pillars

- histHub-Net: linking (Metagrid)
- histHub-Norm: authority data
  - four main entities: persons, places, organisations, and concepts
  - several thesauri: forenames, names, titles, occupations, place types, organisation types...
  - ontology based on CIDOC-CRM and *Data for History*

# Standardising with histHub thesauri
